

The GenAI Master

A Comprehensive
GenAI Course for
School Kids

A Power-Packed Online Course to Make Kids Learn GenAI and Showcase Their Skills.

Empowering
Kids to Become
GenAI
Creators &
Developers

Generative AI is Redefining the Human Life.

**The change is happening at the
speed of light and we need to
make our children ready for it.**

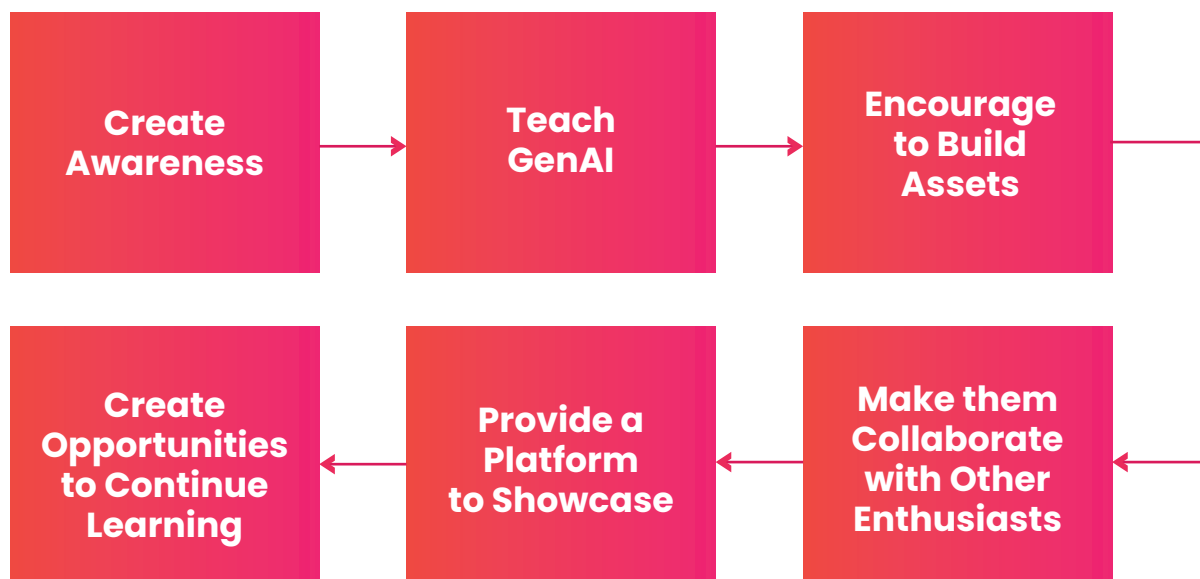

We need to make our children understand the emerging capabilities of the machines and make them ready for the true Human and Machine Collaboration.

The Best Way to Do It is to Inspire them to Learn and Showcase Their GenAI Talent!

Our Approach to making kids ready for the GenAI world.

AI Ready Academy Ecosystem

We are building next gen eco-system to empower
kids from all directions in their career path.

Participate in The GenAI Shows

5&6 Foundation

Curriculum

- 1 Fun with GenAI
- 2 How AI Works?
- 3 How GenAI Works?
- 4 Creating Images with GenAI Tools
- 5 Creating Stories with GenAI Tools
- 6 Creating Songs with GenAI Tools
- 7 Building GenAI Apps
- 8 Responsible AI
- 9 **Projects**
- 10 **Assessment & Certification**

7&8 Foundation

Curriculum

- 1 Introduction to GenAI
- 2 How AI Works?
- 3 How GenAI Works?
- 4 Prompt Designing & Tuning
- 5 Creating a Video Song with GenAI Tools
- 6 Introduction to Thinking 2.0
- 7 Using Thinking 2.0 to Build a GenAI App
- 8 Building a Small GenAI App with Bubble
- 9 Responsible AI
- 10 **Projects**
- 11 **Assessment & Certification**

9&10 Foundation

Curriculum

- 1 Introduction to GenAI
- 2 How AI Works?
- 3 How GenAI Works?
- 4 Prompt Designing & Tuning
- 5 Creating a Video Song with GenAI Tools
- 6 Creating a Video Story with GenAI Tools
- 7 Introduction to Thinkning 2.0
- 8 Using Thinking 2.0 to Build a GenAI App
- 9 Building a Small GenAI App with Python
- 10 Responsible AI
- 11 Projects
- 12 Assessment & Certification

Regular Courses

The regular courses are grade-wise and offer extensive coverage of the latest happenings in from the world of Generative AI.

Course Fee

\$169 Per Month

Participate in The GenAI Shows

6th Grade

Curriculum

- 1 Fun with GenAI
- 2 History of AI & How AI Works
- 3 Creative Coding and Introduction to Python
- 4 The Math Behind AI - 2
- 5 How GenAI Works
- 6 Building and Refining Prompts
- 7 Using GenAI for Studies
- 8 GenAI Use Cases
- 9 Building Stories with GenAI Tools
- 10 Thinking to Solve Problems with AI
- 11 Building a GenAI App
- 12 Basics of Running a Business
- 13 Ethical & Responsible Usage of AI
- 14 **Projects**
- 15 **Assessment & Certification**

7th Grade

Curriculum

- 1 Introduction to AI & GenAI
- 2 Understanding Neural Networks
- 3 Understanding Transformers
- 4 Understanding LLMs
- 5 The Math Behind AI - 3
- 6 Programming with Python - 1
- 7 Introduction to Top 10 GenAI Tools
- 8 Prompt Design & Engineering - 1
- 9 Creating Content with GenAI Tools
- 10 Using Thinking 2.0 for Problem Solving
- 11 The Process of Building GenAI Apps
- 12 Responsible AI Development
- 13 Skills Required to Run a Business
- 14 Projects**
- 15 Assessment & Certification**

8th Grade

Curriculum

- 1 Generative AI - Quick Refresher - 1
- 2 GenAI Application Use Cases - 1
- 3 Types of Neural Networks
- 4 Natural Language Processing
- 5 Open Source LLMs
- 6 The Math Behind AI - 4
- 7 Programming with Python - 2
- 8 Using Open AI API in Python
- 9 Prompt Design & Engineering - 2
- 10 Creating 3D Animated Story with GenAI
- 11 Applying Thinking 2.0 on a Target Problem
- 12 Building Documentation for GenAI Project
- 13 Introduction to Bubble No Code Platform
- 14 Building a GenAI App with Bubble
- 15 Understanding AI Laws & Policies
- 16 Creating a Business Plan
- 17 The Value of Open Source
- 18 **Projects**
- 19 **Assessment & Certification**

9th Grade

Curriculum

- 1 Generative AI - Quick Refresher - 2
- 2 Reviewing Important Papers on AI
- 3 Reviewing GenAI Platforms
- 4 Deploying Open Source LLMs - Local
- 5 Evaluating LLMs
- 6 The Math Behind AI - 5
- 7 Programming with Python - 3
- 8 Introduction to Django Python Framework
- 9 Creating the Prototype with Figma
- 10 Collaborative Coding on GitHub
- 11 Building a GenAI App with Django
- 12 Deploying the App on Digital Ocean with a Domain
- 13 Introduction to Workflow Automation with GenAI
- 14 Creating an Ad Commercial with GenAI
- 15 GenAI Application Use Cases - 2
- 16 Responsible AI Frameworks
- 17 Finance & Marketing of a Business
- 18 **Projects**
- 19 **Assessment & Certification**

10th Grade

Curriculum

- 1 Generative AI - Quick Refresher - 3
- 2 Reviewing Important Papers on AI
- 3 Fine-tuning LLMs
- 4 Retrieval Augmented Generation (RAG)
- 5 LLM Ops
- 6 The Math Behind AI - 6
- 7 Programming with Python - 4
- 8 Django - Advanced Features
- 9 Creating Complete Project Documentation
- 10 Building a Complex GenAI App & Deploying
- 11 Deploying Open Source LLMs - Cloud
- 12 Building GenAI Agents
- 13 GenAI Application Use Cases - 3
- 14 Becoming a Responsible AI Leader
- 15 Product, Funding & Growth of a Business
- 16 **Projects**
- 17 **Assessment & Certification**
